

List of differences between corporate liability insurance in 2008 and in 2014

- Article 3.1.3 In connection with the change in the fire recourse regulations, the reference to the Corporate Fire Recourse Regulations 2000 has been deleted;
As a result, the entire insured sum is available in the event of recourse by fire insurers or if this is caused by a fire, unless different agreements are recorded in the policy sheet.
- Article 4.5 The clause on reporting of personal injury has been added;
As a result, in the event of personal injury (for which the deductible may apply), there is no confusion about who is responsible for the claim handling. This ensures that the interests of insurers can never be harmed in the settlement of the damages.
- Article 5.2.6 This clause has been added in connection with SEPA.
SEPA imposes requirements in the event of direct debit. This Article records these agreements.
